ARTIST TIPS The following tips are suggestions to help you:Selecting Your Image

- If reproducing an image originally created by another artist (living or deceased), it is important to credit the original artist and the title at the base of your painting or on a 3X 5 card.
- Make color photocopy of the artwork or bring the photo. Make several copies if more than one artist (team or family) will be working on the piece.
- If you want your proportions to be correct, you might consider drawing a grid over the photocopies using a ruler and thin marker. You can lay out a corresponding grid on the asphalt. An example is half-inch squares on the picture to 6 inch squares on the sidewalk. Mount photocopies on cardboard to make them easier to work with. A carpenter's chalk line is ideal for this.

Suggested Supplies:

- Wisk broom or brush for cleaning the drawing surface. Do not blow the dust particles
- A 2' x 2' piece of heavy fabric, carpet square or cardboard to sit or stand on to avoid smearing your work.
- A soft towel, gardener's pad, or knee pads to kneel on. Some carpet squares available at registration.
- A chalkboard eraser, foam, terry cloth or short-cut brushes for blending larger areas of color.
- Water and a cloth or sponge to erase unwanted parts of your design.
- Old towels or rags to clean up as necessary.
- Masking tape for creating sharp borders, geometry.
- Additional chalk, if you need a lot of a certain color. Additional chalk may be available at nominal cost.
- Cotton gloves to protect your hands. Latex or Nitrile gloves to protect your fingertips and assist in blending colors.
- Sunscreen, sunglasses, or a hat sun exposure.
- Canopies allowed, no more than 10X10 at its base.
- Refreshments (or they will be available for purchase). Keep open beverage containers away from paintings. No glass allowed.
- Camera to take photos of your creation!

Chalking Your Masterpiece

- Start from the top of the painting area and begin painting the image with the colored chalk.
- Lay a foundation of color using your fingers in small areas and a chalkboard eraser for larger areas.
- Fill in the details of the image using various shades of colored chalk. Blend colors to gain the right effect. Leave some chalk color unblended on the surface of the concrete to bring out colors, highlights and details.
- Work your way down the area of your painting.
- Remove the masking tape to reveal clean, crisp outlines.
- Do not blow or fan excess chalk into the air. It will dull your colors, and chalk dust is not good to breathe.
- To get intense color, apply the chalk more than once (the first time fills in cracks and crevices) and bear down hard. The second time is to let the chalk powder rest on the top of the bumps. Then don't touch it anymore!
- Sign your work when finished along with assigned number of the art square space.

IN CASE OF RAIN: Event will go on Rain or Shine!

It is recommended that artists cover their drawings with clear plastic in the event of light rain. It will be the responsibility of the artists to cover their own drawings with the sheets and weigh it down. Only in case of severe weather, the festival may be cancelled - unfortunately no refunds will be issued due to costs incurred by Byron Community Wellness Foundation.
